

CARTER CONTROLS (UK) LIMITED

EXCELLENCE

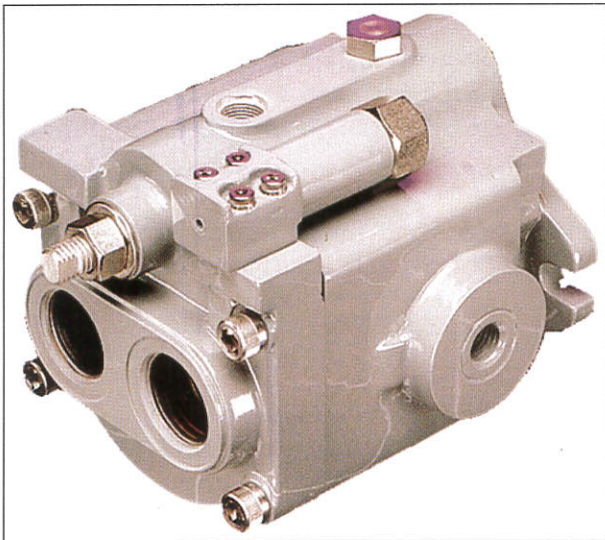

Every completed Cylinder is tested to confirm functional reliability and is marked with its' own test number to enable full traceability. All procedures conform to ISO 9002 and full accreditation is expected in the near future.

AMBITION

Our ambition is to provide a secure workbase for our employees, by supplying a package which is second to none, both locally and nationally.

COMMITMENT TO ROTHERHAM

Since our move to Rotherham 3 years ago, we have doubled the size of our premises to accommodate a larger manufacturing area and firmly believe that membership of the Manufacturers' Group and Rotherham Chamber of Commerce, Training and Enterprise Council can only encourage inter-trading, in turn creating wealth within the Rotherham area.
